## CERTIFICATE OF NON-OBJECTION

for

# SILIPHOS

We herewith confirm that we are acknowledged as manufacturer of pharmaceuticals, food additives and additives for drinking water (such as SILIPHOS etc.)

SILIPHOS is certified by NSF in the USA. It conforms to the NSF Standard 60 – “Drinking Water Treatment Chemicals”

SILIPHOS also complies with the EUROPEAN STANDARD EN 1208 “ Chemicals used for treatment of water intended for human consumption–Sodium Calcium Polyphosphate”

SILIPHOS fulfils the general requirements of FAO/WHO Rep. No. 7 – “Specification for the Identity and Purity of Food Additives and their Toxicological Evaluation: Emulsifiers, Stabilizers, Bleaching and Maturing Agents”

The application of SILIPHOS at the recommended concentration of 3 – 5 mg/l, which corresponds to 2.5 – 4.5 mg/l PO<sub>4</sub>, is absolutely safe for human consumption. All products destined for human consumption are undergoing a thorough control in our technical and analytical laboratories.

In most countries the permitted dosage of phosphates for treatment of potable water according to legislation is 5 – 10 mg/l PO<sub>4</sub>. This concentration is sufficient for achieving the desired technical effects.

The average intake of Phosphorous containing compounds with food is about 4.900 mg PO<sub>4</sub>/d for grown-up persons.
